Design, Debugging, Deployment

**Soft Skills:** Teamwork, Self-learning, Time Management, Problem Solving

**Goals:** NodeJS, Express, Nest [GazaSkyGeeks Training], Being full stack developer.

---

## Projects

- ♦ **AI Forms Builder** – *Next.js + MongoDB*

Built a real-time AI-powered form generator with authentication and response tracking.

 [form-ai-gold.vercel.app](https://form-ai-gold.vercel.app)

- ♦ **Enhanced Todo App** – *React.js*

A smart productivity tracker with filtering, animations, and responsive UI.

 [task-manager-dusky-six.vercel.app](https://task-manager-dusky-six.vercel.app)

- ♦ **Doctor Clinic Platform** – *React.js (Team Project)*

Collaborated on building a clinic management interface for doctors and patients.

- ♦ **Memory Cards Game** – *React + Firebase*

An interactive memory game with multiple levels and real-time user data stored in Firebase.

 [Soon]

- ♦ **CodePilot** – *Next.js AI Code Debugger*

Team project that won **1st place** in the GSG training — built an AI-powered tool that detects and explains code issues.
